Day - 1-4 Holbox

HOLBOX (*B, D*)

Villas Palapas del Mar is a very nice hotel less than 50 meters from the beach of the Caribbean Island Holbox where white sandy beaches with crystal clear water in different blue colours different from any other part in the world expect you. The new hotel construction has all the amenities ready for your relaxing stay in one of the 52 suites on the Mexican beach. The location of the hotel offers both tranquility for the guests looking for an escape from the busy daily working life or those looking for an adventure that can visit the Island for example during the time (mid May to approximately mid September) where the whale shark is residing closeby to swim with them. The hotel and its installations are decorated in the fine Mexican, Caribbean design and await the guests with a warm welcome. Your beach moment includes 3 nights in the chosen room category and a delicious breakfast as well as a massage treatment in the hotel spa and an exclusive dinner with an outstanding view on the Caribbean Sea. In addition to that we have organised several moments where you meet the locals.

On the second day you will be accompanied to the local market in Holbox where you can buy lots of food above all tropical fruits and see Mexican vegetables.

A highlight of your trip is at the end of your stay and on your way back to the airport, a visit of a Mayan village and school where you will learn details of this ancient and wise civilization and assist a class of a special kind – you will be taught how to write your name in Mayan hieroglyphs and the basics of Mayan mathematics. The local children will be more than happy to give you an insight into their traditions and daily lives. A unique experience on the Holbox Island is the bioluminescence. If the weather conditions allow it and no moonlight is present we will take you one evening to the southern beach of the island where you can observe this breathtaking lights.
